ENVIRONMENTAL POLICY STATEMENT

Scope: Fortress Interlocks Ltd, located in Wolverhampton, U.K., design and manufacture global interlocking systems and products for process, electrical and industrial applications.

We limit our effects on the environment by working within the framework of Environmental standard ISO14001 that is maintained under 3rd party accreditation.

Fortress is committed to continual improvement, resulting in:-

- The minimisation of any disturbance to the local and global environment.
- Minimisation of all forms of waste and a clean and orderly workplace.
- The prevention of pollution.
- Compliance with all relevant statutory and other requirements, for example:-
- Taking action to conserve resources, especially those which are scarce or non renewable.
- Assessing the environmental effects of any significant new developments in advance.
- Providing information to enable Fortress's products to be properly used, stored and disposed of, so as to avoid unacceptable effects on man or the environment.
- Providing information to employees to enable the proper operation of processes with minimal effect to the environment.

Fortress's overall objective is to develop our business with full regard to the environment, taking into account the views of all affected parties.

A handwritten signature in black ink, appearing to read 'J. Smith', is positioned above the printed name and title.

J. Smith Managing Director
